source.mp4

Original-language transcript and timestamped screen observations. Visual changes and temporal links are candidates for review.

Source time origin: 0.0 seconds. Displayed times are relative to this origin.

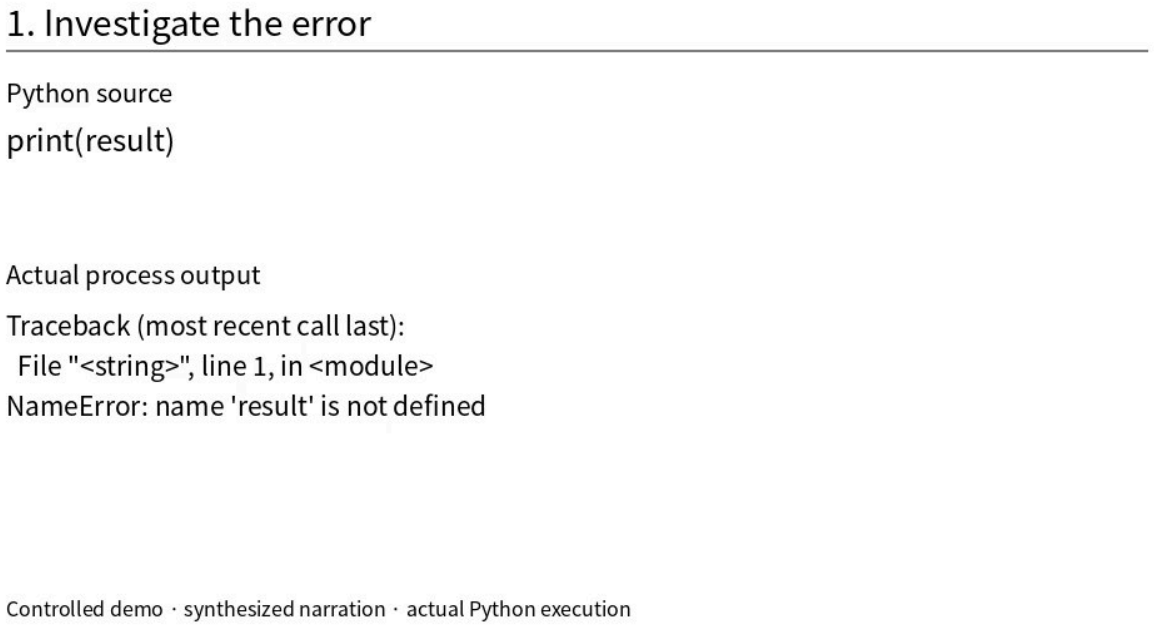

Screen at 00:00:00.000 (periodic)

00:00:00.000–00:00:02.940

This Python program prints result before defining it.

Screen context: f000000 f000001 f000002 f000003 f000004

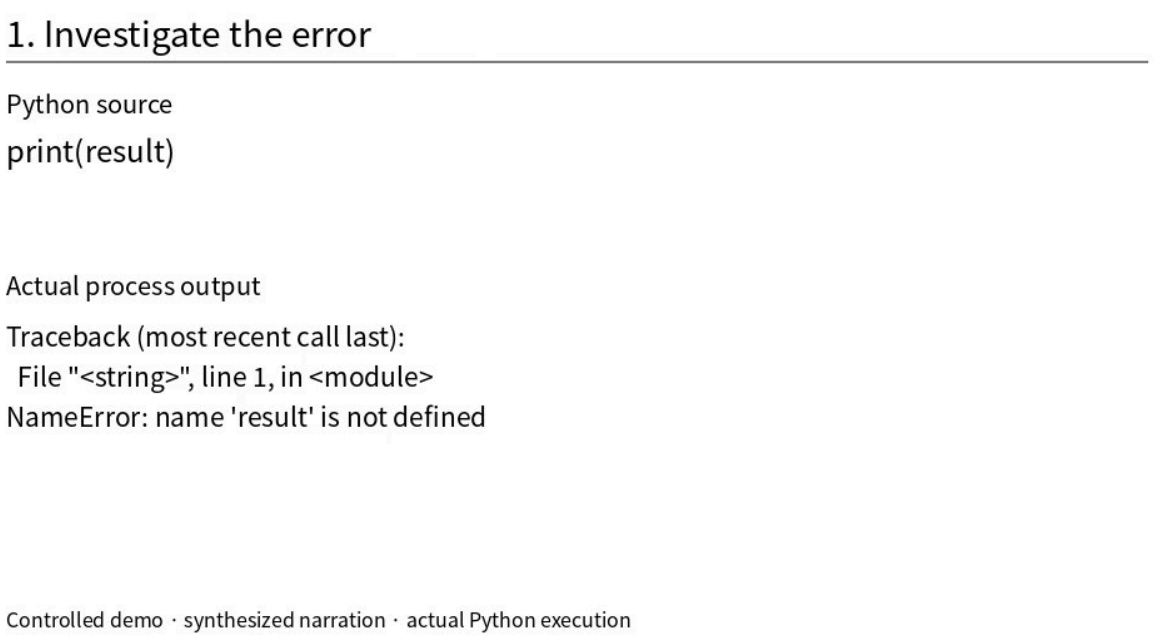

Screen at 00:00:03.000 (periodic)

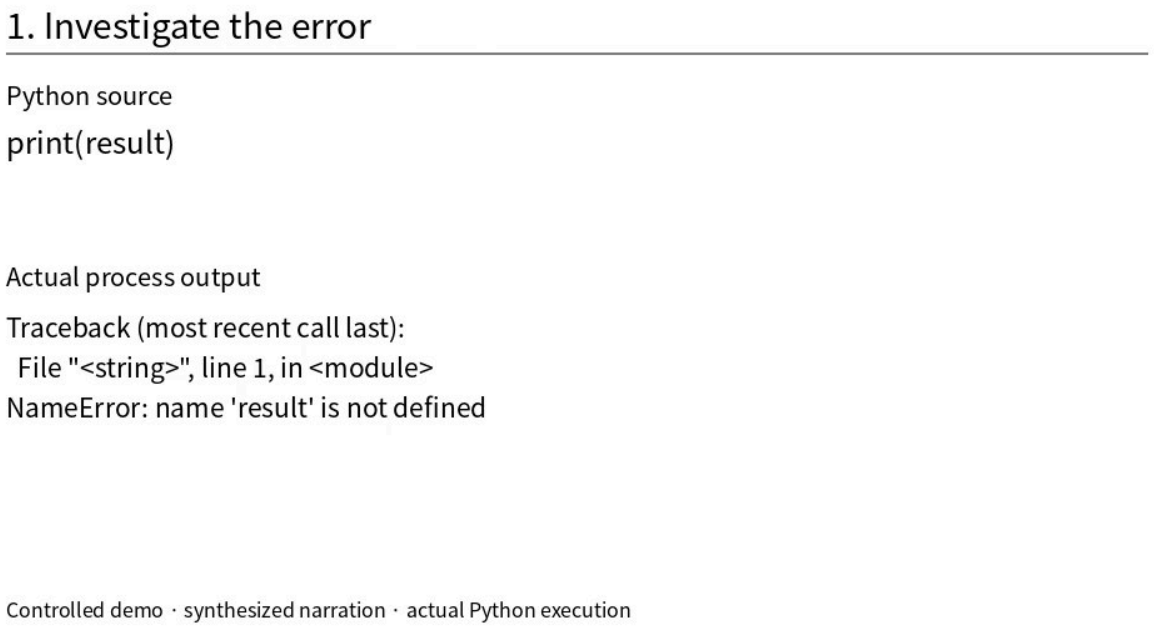

00:00:03.040–00:00:04.780

The traciback shows a name error.

Screen context: f000000 f000001 f000002 f000003 f000004 f000005 f000006

Screen at 00:00:05.000 (before-change)

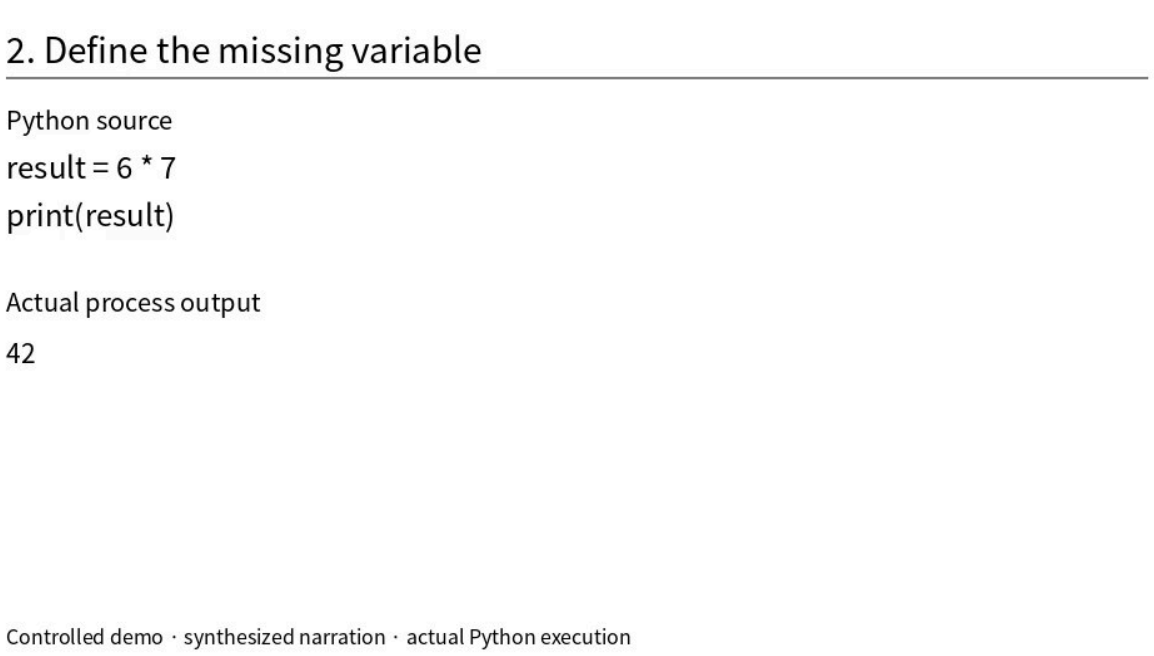

Screen at 00:00:05.000 (agent-requested-dense-sample)

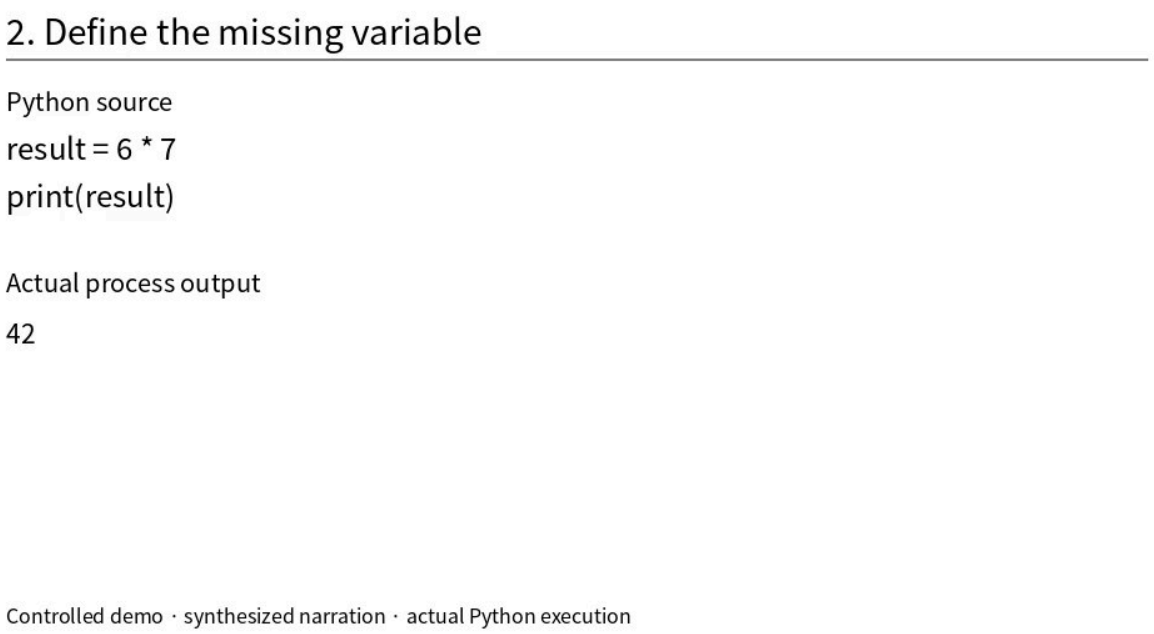

00:00:05.020–00:00:06.700

Na result is 6 times 7.

Screen context: f000000 f000001 f000002 f000003 f000004 f000005 f000006 f000007

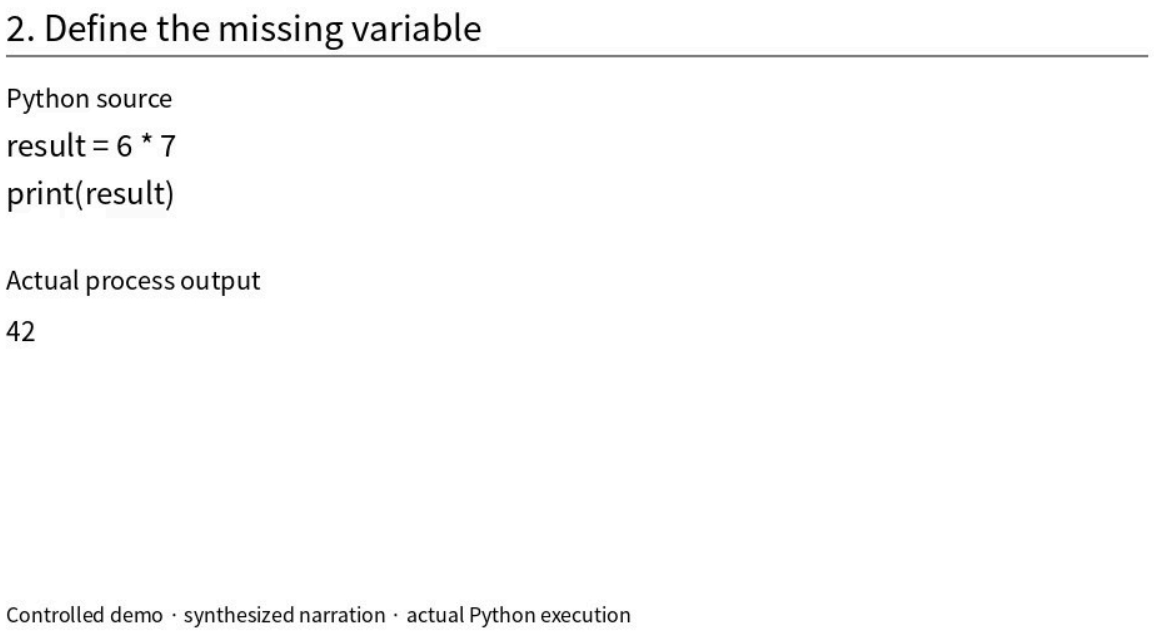

Screen at 00:00:05.400 (agent-requested-dense-sample)

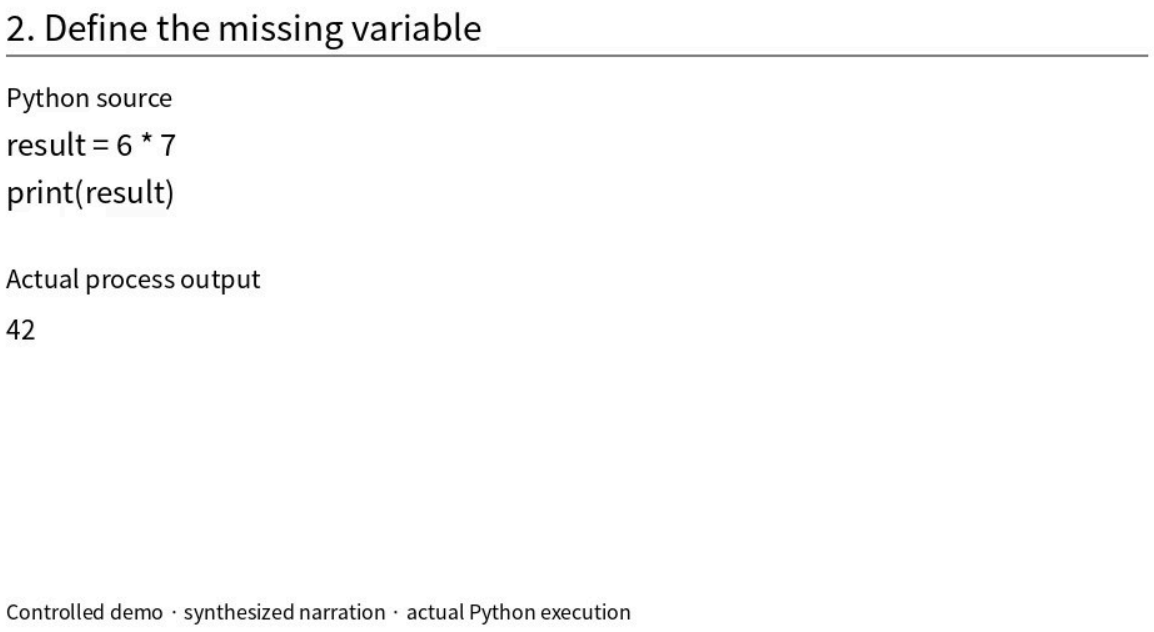

Screen at 00:00:05.500 (at-change)

Visual change candidate e000000: observed between 00:00:05.000 and 00:00:05.500.

Screen at 00:00:05.800 (agent-requested-dense-sample)

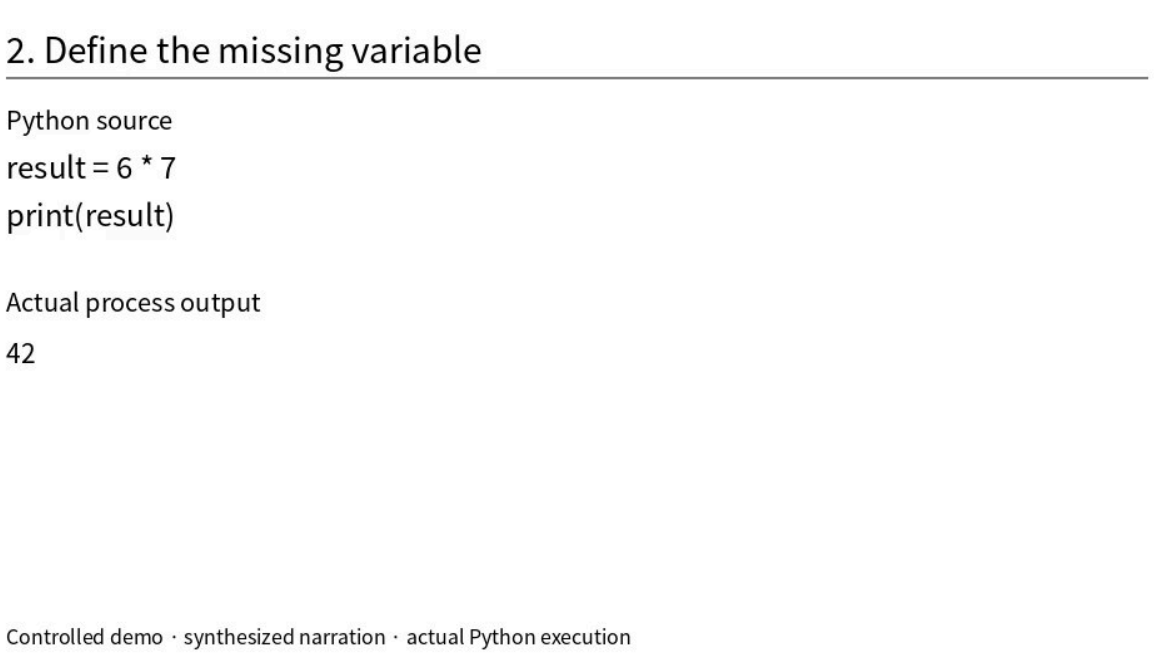

Screen at 00:00:06.000 (after-change, periodic)

00:00:06.920–00:00:08.600

Running the program prints 42.

Screen context: f000000 f000001 f000002 f000003 f000004 f000005 f000006 f000007 f000008 f000009

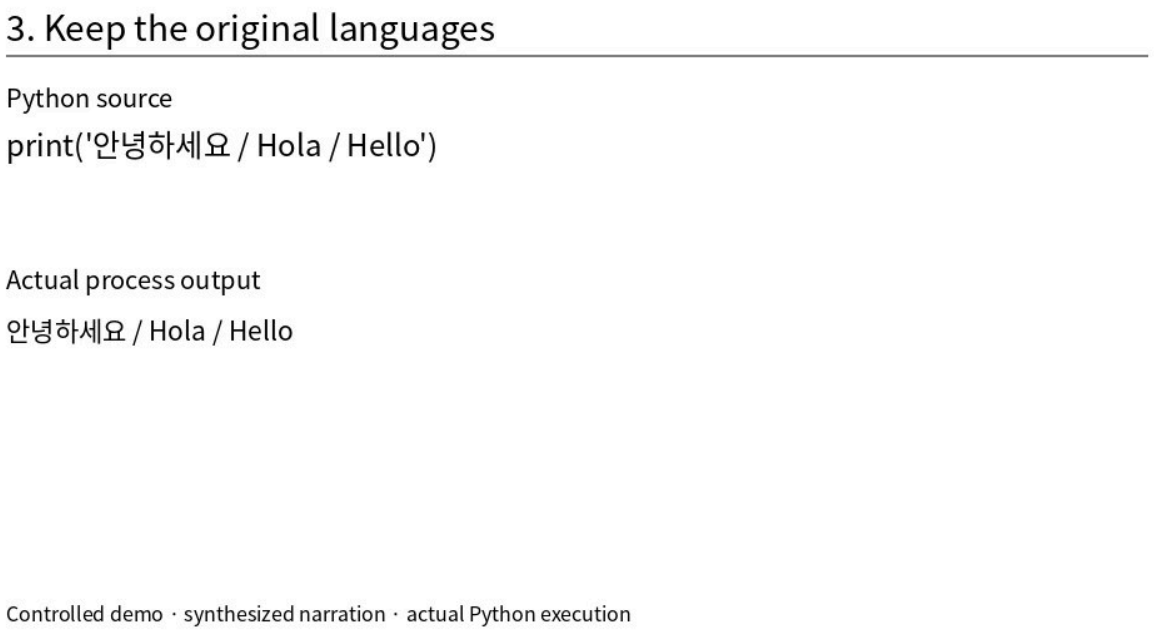

Screen at 00:00:09.000 (periodic, before-change)

00:00:09.040–00:00:13.200

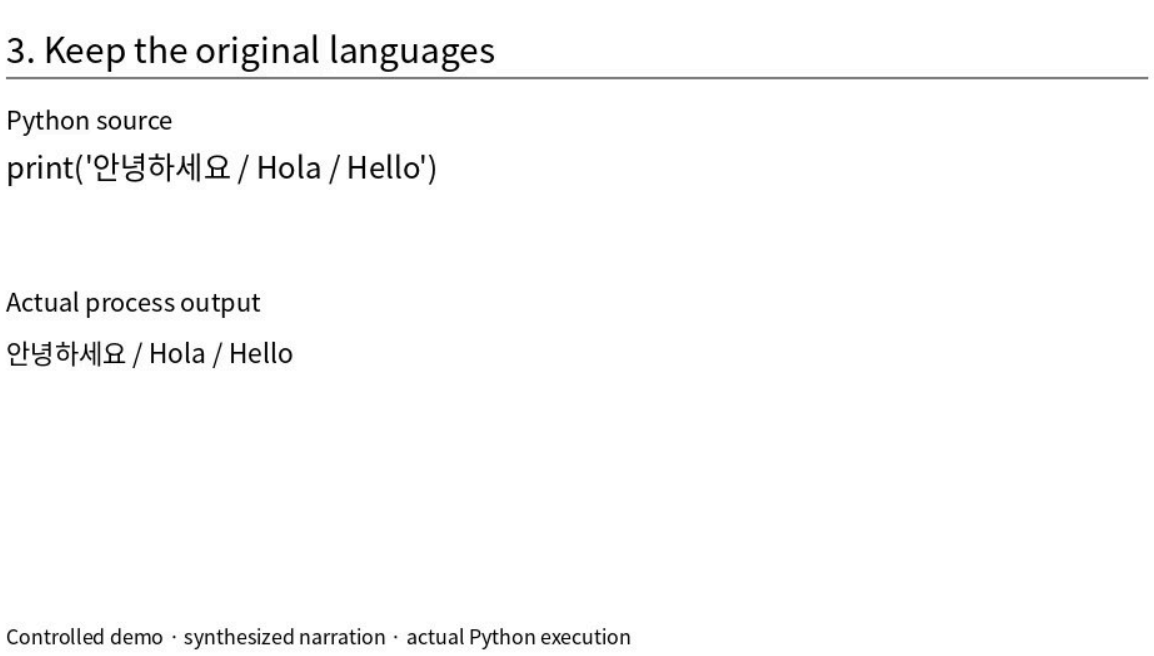

Finally the program prints greetings in Korean, Spanish, and English.

Screen context: f000001 f000002 f000003 f000004 f000005 f000006 f000007 f000008 f000009

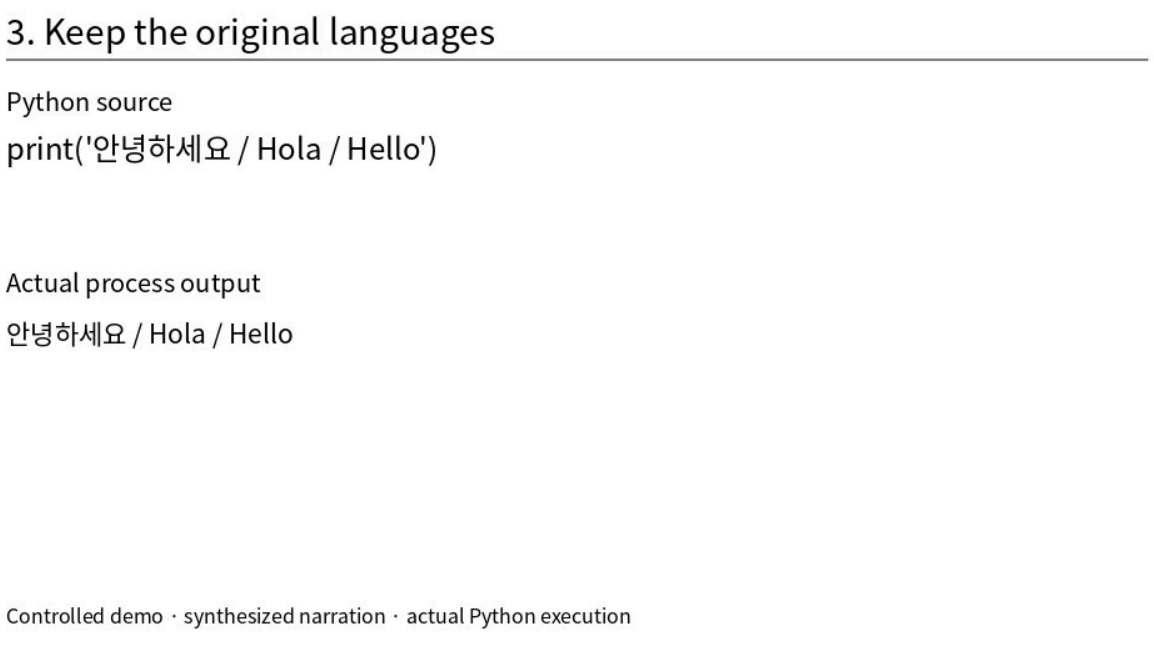

Screen at 00:00:09.500 (at-change)

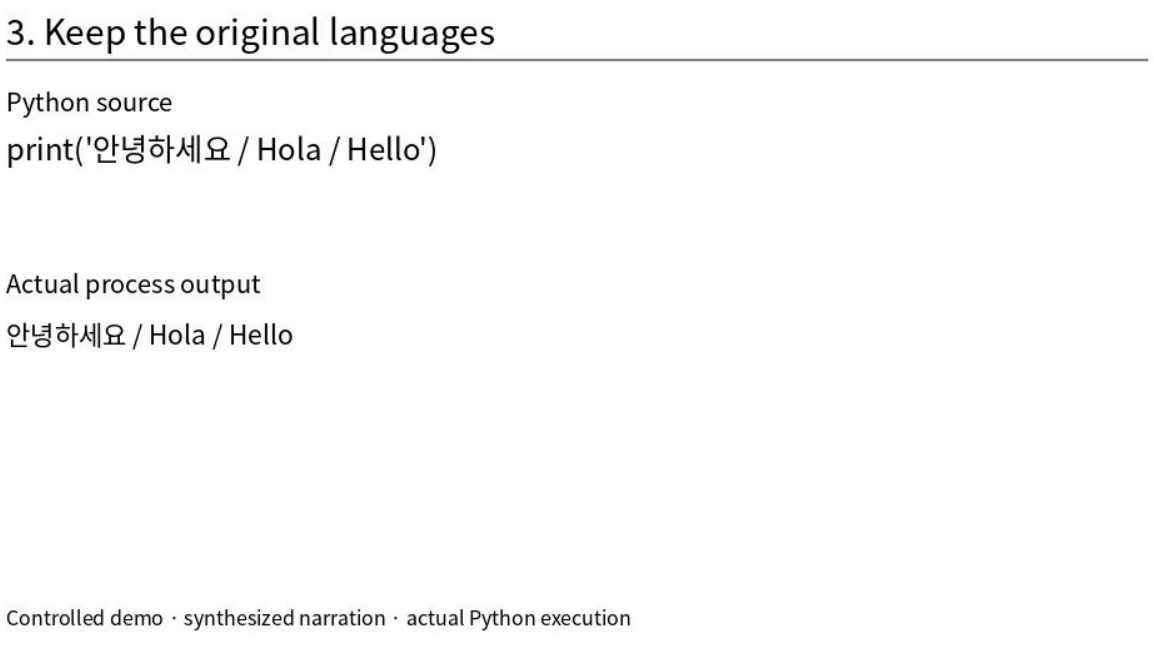

Visual change candidate e000001: observed between 00:00:09.000 and 00:00:09.500.

Screen at 00:00:10.000 (after-change)

Screen at 00:00:12.000 (periodic)

Screen at 00:00:13.500 (last-sample)

Speech coverage audit

These are candidates, not a completeness guarantee.

- 00:00:13.350–00:00:13.746: possible missing speech

Review: Demo reviewer: screen inspection only; audio not inspected

Suggestions; original speech is preserved above.

s000001: The traciback shows a name error. → The traceback shows a NameError.
Reason: The inspected screen contains Traceback and NameError. This is a terminology proposal pending audio inspection.

Decision: deferred by Demo reviewer · Audio was not inspected; preserve the baseline and proposed terminology separately.

e000000: The screen changes from an undefined result variable and NameError to result = 6 * 7 with output 42. s000002 s000003

Uncertain s000002: The initial token is transcribed as Na. Compare the audio before changing it; the screen alone cannot establish the spoken word.

Explicit review coverage: 2 / 5 speech segments. Coverage is a reviewer attestation, not an accuracy guarantee.
